 - a. Information relating to evacuees, their movements, needs, location, etc
2. Smoke and Air Quality
 - a. Tweets relating to or showing signs of smoke or the current air quality.
3. General Information
 - a. General info about the wildfire situation such as total hectares burned, other statistics.
4. Preparedness
 - a. Information for the general public to prepare themselves and property (grab bag, prepare property for potential fires) for the wildfire situation
5. Weather Reports
 - a. Any information relating to the weather with a specific location mentioned (storms, lightning, forecast, satellite imagery)
6. Warnings & Status Updates
 - a. Fire bans in certain areas
 - b. New information about a specific area, such as 'fire at x is out of control, total hectares burned rises to y'
 - c. Speeches from public officials about an update for the situation
7. Reports of Actions of Responders
 - a. Actions of firefighters or other responders within a specific area(s) and or time(s), prescribed burns
8. Infrastructure
 - a. Detours, road closures, damage to infrastructure including utility poles, highways
 - b. Work done by crews to mitigate and repair the damage
9. Political
 - a. Comments towards or from political figures or parties
10. Support
 - a. Mental health and financial support, temporary housing for people & livestock
11. Insurance
 - a. Anything relating to insurance such as employment insurance or otherwise
12. Advertisement
 - a. Posts about food, restaurants, off-topic advertising for services including apps, air-purifiers, etc (not insurance related)
13. Other
 - a. No 'useful' information, focuses on picture such as of scenery (smoke goes to cat. 2)
 - b. Thank you's
 - c. General complaining or ranting (unless its political which goes to cat. 9)
 - d. Post does not fit well into a previously defined category

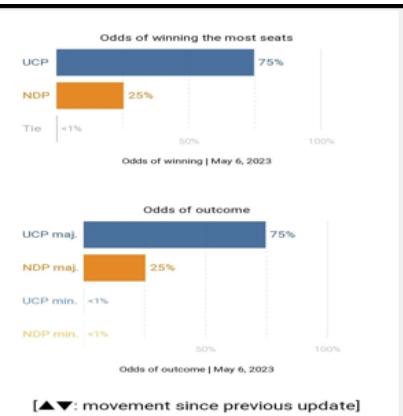

We would also like to flag posts that contain personal information, including:

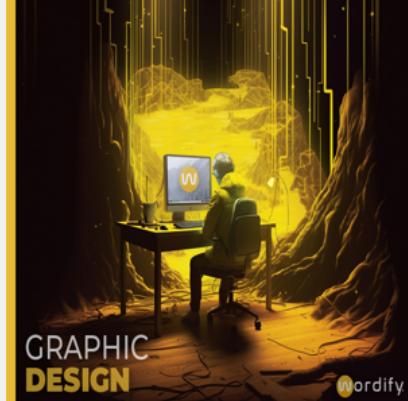

- Faces, names, personal phone numbers
